## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

SC240006 Abnormal Loads Procurement

Reference number

DN707476

#### **II.1.2) Main CPV code**

- 71311000 - Civil engineering consultancy services

#### **II.1.3) Type of contract**

Services

#### **II.1.4) Short description**

This project is for the procurement of an Abnormal Loads Notification Processing System. When carrying an abnormal load, Hauliers are required to notify the police, highways, and bridge authorities regarding the movement of abnormal loads around the road network. The hauliers have historically notified the relevant parties using "Cascade's Abhaulier system, "National Highway's Esdal system" or via direct communication. These systems allow for the routes to be checked by the asset owner (or a delegated third party) to ensure the proposed route is suitable and safe to carry the abnormal load.

The KCC is using a one-stage 30 day open tender to identify the most suitable supplier/service provider.

Requirements and needs of the service:

The contract is to include all updates, improvements and upgrades to the service throughout its duration.

The service must have the capacity to process up to and in excess of 3,500 Abnormal Load notification requests per month.

A full list of service requirements can be found in Schedule 2 of the "Terms and Conditions" document

The KCC is looking to outsource the service to a single supplier. It is necessary to

continue to outsource the service as the KCC does not have the capacity to manage it within its current structure.

### **II.1.6) Information about lots**

This contract is divided into lots: No

## **II.2) Description**

### **II.2.3) Place of performance**

NUTS codes

- UK - United Kingdom

### **II.2.4) Description of the procurement**

The Kent County Council (KCC) is looking to obtain the services of software that can process the management and checking of abnormal load notifications/movements across KCC's publicly maintainable road network. The software must provide a fully comprehensive system that can confidently manage an average of 3200 abnormal load notifications per month (capacity for additional requests as required). The system will be providing a statutory service that is vital to protect the structural integrity of assets, typically bridges, on Kents road network. It is anticipated that the supplier will be expected to deliver the contract across a 5-year period. This will consist of a 3-year initial term with an additional 2x1-year extension option.

Further Information can be found in Schedule 2 of the "Terms and Conditions document.

### **II.2.5) Award criteria**

Price is not the only award criterion and all criteria are stated only in the procurement documents

### **II.2.7) Duration of the contract, framework agreement or dynamic purchasing system**

Duration in months

36

This contract is subject to renewal

No

### **II.2.10) Information about variants**

Variants will be accepted: No

**II.2.11) Information about options**

Options: No

**II.2.13) Information about European Union Funds**

The procurement is related to a project and/or programme financed by European Union funds: No

## **Section IV. Procedure**

### **IV.1) Description**

#### **IV.1.1) Type of procedure**

Open procedure

#### **IV.1.8) Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: Yes

### **IV.2) Administrative information**

#### **IV.2.2) Time limit for receipt of tenders or requests to participate**

Date

15 April 2024

Local time

12:00pm

#### **IV.2.4) Languages in which tenders or requests to participate may be submitted**

English

#### **IV.2.7) Conditions for opening of tenders**

Date

15 April 2024

Local time

12:00pm

---

## **Section VI. Complementary information**

### **VI.1) Information about recurrence**

This is a recurrent procurement: No

### **VI.4) Procedures for review**

#### **VI.4.1) Review body**
