## Lathe for Contact Lenses

MOORFIELDS EYE HOSPITAL NHS FOUNDATION TRUST

UK5: Transparency notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-008339

Procurement identifier (OCID): ocds-h6vhtk-04ea7d ([view related notices](#))

Published 7 March 2025, 12:29pm

## Scope

## Description

The contact Lens service at Moorfields Eye Hospital is the largest hospital based medical contact lens service in the UK. 15,000 patients attend the contact lens service on an annual basis for medically necessary contact lenses. The contact lens manufacturing lab produced 2500 rigid gas permeable contact lenses and approximately 500 scleral lenses per annum, which provides our patients with sight correction that they would not have through any other means of correction. The quality of life impact on these patients is huge. The new lathe will allow a greater number of lens options to be manufactured in house thus reducing our external spend with other contact lens manufacturers thus offering not only excellent patient outcomes but cost efficiencies for the Trust.

- UKK - South West (England)

---

## **Other information**

### **Conflicts assessment prepared/revised**

Yes

---

## **Procedure**

### **Procedure type**

Direct award

### **Direct award justification**

## Single supplier - technical reasons

This contract award is made under Regulation 41 of the Procurement Act 2023, which permits Direct Award without prior publication. The justification is based on an absence of competition for technical reasons, and there are no reasonable alternatives.

The solution from the winning supplier is the only available replacement to meet Moorfields' in-house production needs. With a 5mm excursion for complex designs, a side probe for precise alignment & space for all lens sizes, a laser engraver, edge-finishing tool, smart channel cutting for BostonSight scleral lenses & customised software to streamline production & minimise errors, it reduces reliance on external manufacturers.
