II.1.4) Short description

The primary scope of this tender is to design, supply, install and commission hardware comprising a system which demonstrates how digital technologies can be deployed, in the food & drink manufacturing sector. It is intended that the system would allow companies to understand the incremental steps necessary to digitise product quality and compliance inspection processes, moving from manual inspection and sorting to automated monitoring sorting applications.

The system should be able to monitor operations and performance characteristics. These could include, but are not limited to, the following:

Product Colour

Product Dimensions

Product Moisture Content

General remote viewing of operations
