I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Education

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

(NU/1609-10) Supply of a Zero Discharge Cleaning System

Reference number

DN531717

II.1.2) Main CPV code

- 31000000 - Electrical machinery, apparatus, equipment and consumables; lighting

II.1.3) Type of contract

Supplies

II.1.4) Short description

The Driving the Electric Revolution (DER) is an Innovate UK (IUK) Challenge program to support UK industry to seize the economic opportunities from the global transition to clean technologies and electrification. The programme will help businesses across numerous sectors including transport, energy, construction and agriculture to invest and work together to capitalise on the UK's strengths in this technology.

As part of that program, Newcastle University has been awarded a large grant to establish a new DER Innovation Centre (DER-IC) in the North East of England. The NE DER-IC will concentrate on the prototyping and scale-up of power electronics and electric motors.

This tender is focussed on the power electronics aspect and specifically the purchase of relevant cleaning equipment to remove unwanted solder paste from screens and circuit boards.

The scope is for the supply, delivery, and commissioning of the equipment as detailed in the Invitation to Tender document, with after sales support, a minimum 12 months parts and labour warranty and maintenance.

This requirement was only advertised to all Sellers appointed to Lot 6: Screen Printing of (NU/1609) Power Electronics Manufacturing Dynamic Purchasing System.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £46,679.12

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKC22 - Tyneside

II.2.4) Description of the procurement

The Driving the Electric Revolution (DER) is an Innovate UK (IUK) Challenge program to support UK industry to seize the economic opportunities from the global transition to clean technologies and electrification. The programme will help businesses across numerous sectors including transport, energy, construction and agriculture to invest and work

together to capitalise on the UK's strengths in this technology.

As part of that program, Newcastle University has been awarded a large grant to establish a new DER Innovation Centre (DER-IC) in the North East of England. The NE DER-IC will concentrate on the prototyping and scale-up of power electronics and electric motors.

This tender is focussed on the power electronics aspect and specifically the purchase of relevant cleaning equipment to remove unwanted solder paste from screens and circuit boards.

The scope is for the supply, delivery, and commissioning of the equipment as detailed in the Invitation to Tender document, with after sales support, a minimum 12 months parts and labour warranty and maintenance.

This requirement was only advertised to all Sellers appointed to Lot 6: Screen Printing of (NU/1609) Power Electronics Manufacturing Dynamic Purchasing System.

Total value of the contract/lot: £46,679.12

Section VI. Complementary information

VI.4) Procedures for review

VI.4.1) Review body

Newcastle University

Newcastle upon Tyne

Country

United Kingdom

VI.4.3) Review procedure

Precise information on deadline(s) for review procedures

This authority will incorporate a minimum 10 calendar days standstill period at the point information on the award of the contract is communicated to tenderers. This period allows unsuccessful tenderers to seek further debriefing from the contracting authority before the contract is entered into. Applicants have 2 working days from notification of the award decision to request additional debriefing and that information has to be provided a minimum of 3 working days before expiry of the standstill period.

The Public Contracts Regulations 2015 (SI 2015 No 102) provide for aggrieved parties who

have been harmed or are at risk of harm by a breach of the rules to take action in the High Court (England, Wales and Northern Ireland) within 30 days of knowledge or constructive knowledge of breach.
