---

## Other information

### Conflicts assessment prepared/revised

Yes

---

## Procedure

### Procedure type

Direct award

### Direct award justification

Switching to direct award

Endress + Hauser has been directly awarded the renewal contract for the SICK stack monitoring system. This decision is justified under Schedule 5 of the Procurement Act 2023, which permits direct awards where changing suppliers would result in incompatibility and disproportionate technical difficulties.

Endress + Hauser is the original equipment manufacturer (OEM) for the stack monitoring system and provides both servicing and parts. Switching suppliers would create significant technical challenges and operational risks, potentially leading to compliance breaches. Therefore, a direct award for a 36-month

contract is essential to maintain compliance, operational reliability, and continuity of service.
