The PRD includes the contract award criteria, including the agreed relative importance of key criteria (for example weightings apportioned to questions within the key criteria) against which responses were evaluated. The providers have been assessed and passed against the relevant 5 key criteria and mandatory requirements.

Assessment/Scoring of the Successful Provider(s) Response:

In line with the PSR Regulations, the successful provider(s) were scored against the following PSR 5 Key Criteria as weighted:

Quality and Innovation - Macro Weighting of 24%

To ensure good quality services and the need to support the potential for the

development of new or significantly improved services or processes that will improve the delivery of health care or health outcomes.

Value - Macro Weighting of 15%

To achieve good value in terms of the balance of costs, overall benefits, and the financial implications of a proposed contracting arrangement.

Integration, Collaboration and Service Sustainability - Macro Weighting of 41%

Providing services in:

(i) an integrated way (including with other health care services, health-related services, or

social care services)

ii) a collaborative way (including with providers and with persons providing health related services or social care services)

(iii) a sustainable way (which includes the stability of good quality health care services or service continuity of health care services),

in a way that improves health outcomes.

Improving Access, Reducing Health Inequalities and Facilitating Choice - Macro Weighting of 10%

Ensuring accessibility to services and treatments for all eligible patients, improving health inequalities and the ensuring that patients have choice in respect of their health care.

Social Value - Macro Weighting of 10%

To improve economic, social, and environmental well-being in the geographical area relevant to a proposed contracting arrangement.

Management of Conflict of Interest:

Any Conflicts of interest were monitored and managed with mitigations in place throughout the project if/ when required.

A clarification on the management of Conflict of Interests during the NHSE1023 Competitive Process. Once provider submissions were received, only the names of the submitting providers (organisations) were noted and shared with the evaluation team to re-confirm no conflicts of interest. This was prior to any opening of the evaluation process or submission details being shared. Two evaluators each noted an association with a submitting provider and therefore a potential conflict. Both were immediately removed from the project and replaced by appropriate evaluators who did not have a potential conflict. Only then was the evaluation process allowed to begin and provider submissions accessed by all non-conflicted evaluators.
