II.4) Short description of nature and scope of works or nature and quantity or value of supplies or services

OI may have a requirement to procure and provide support for Engineer Survey (ES) instruments. ES instruments allow Military surveyors to carry out the following functional

requirements:

All site levelling tasks including formwork

Conduct topographic surveys

Carry out hydrographic surveys

Conduct tunnelling surveys

Collection of accurate intervisible electronic survey data & establish local line of sight control

Export topographical data for setting out purposes in industry standard formats

Collection of accurate survey data from areas that are not intervisible

The current support solution consists of the following types of instrument:

Electronic Total Station (ETS), including remote (robotic) operation

GNSS Survey Instrument

Echo sounder

Optical & Digital level

Handheld distance meter

Construction scanning laser

Ancillaries (for example detail poles, tripods etc) are included with the relevant instruments.

Contract duration will be discussed with Industry as part of understanding the cost drivers.

MOD is looking at industry's appetite & capability for some, or all, of the following functions:

Purchase ES

Repair of Capability

Lease or Service Provision

This PIN is an updated version of the Engineering Survey PIN previously released on the DCO under reference - 2018/S 129-293956 dated 04/07/18. The issuance of this PIN does not commit the Authority to any contracting activity.
