- 45261920 Roof maintenance work

II.2.3) Place of performance

NUTS codes

• UK - United Kingdom

Main site or place of performance

UNITED KINGDOM

II.2.4) Description of the procurement

In addition to the over all specification of requirements stated above awarded bidders to Lot 1 are required to provide Installation and Maintenance for Specialist systems as evaluated as part of the ITT question set.

Project Works

It is envisaged that projects to be undertaken by the Contractors under this agreement shall be awarded in one of three ways:

- •Direct award against the schedule of rates and agreed project discount structure.
- •Re-opening competition for their region's Framework Contractors (mini-tender)

The institutions shall provide specifications and an indication of programme for the works with the expectation that the Contractor shall not unreasonably refuse to supply a quotation for the works.

It is envisaged that this manner of call off shall be used in particular for those larger projects over £250,000 net Vat GBP, or where the specification or design of the project requires a degree of contractor input.

The tender documentation details a discount structure on the schedule of rates for those instances where the institutions making the call off decide to appoint a contractor directly without further competition. This shall be applied to the NET VAT Project value of the

commission made by the Institution to the contractor.

The institutions will commonly utilise an electronic tendering system to facilitate minitenders and the Contractor should commit to registering on said systems.

The method of selecting the contractor following mini tender will be based upon the Framework Agreement award criteria, but maybe adjusted by a reasonable proportion in terms of weighting to better reflect the institution's requirements.

Projects may be conducted against either NEC3 or JCT forms of contract.

It is expected that the Institutions own preferred contracts may form the basis of any call off or appointment as opposed to the Contractor's.
