II.2.4) Description of the procurement

This procurement is for the Lot C: End-to-End Contract Management System. This system will support the delivery of end-to-end project managed contracts, for example, the NEC3 and NEC4 contract families, enabling effective governance and management of delivery, compliance and risk. Where multiple contracts are put in place to deliver a project (for example, separately for design and construction), the system will provide visibility of performance across the whole project. The system will also support tailored workflows and collaboration between contract parties to manage tasks, “events” and approvals; and will provide operational reporting for commercial, project and contract managers.

The system will also support the export and import of data via Application Programming Interfaces between our Lot A: Source-to-Contract System (Atamis 3.0) to keep our master contract register (held in Atamis 3.0) up to date, and to enabling performance reporting and dashboarding through our Microsoft Power BI analytics platform.

The new systems are being procured, contracted for, or built by NDA in five parts, referred to hereafter as lots:

- Lot A: Source-to-Contract System – Atamis 3.0;
- Lot B: Market and Supplier Intelligence;
- Lot C: End-to-End Contract Management System – this Lot;
- Lot D: Supply Chain Risk Management System;
- Lot E: Analytics, Reporting and Dashboarding System – Microsoft Power BI.
