- The procurement falls outside the scope of application of the regulations

Explanation:

RPC have supported various Campus Services projects for the University of Birmingham supporting specialist activities in various professional fields that are not University core activities and continuity is a key aspect at this time.

RPC were fundamental in obtaining the commercial interest for the Commonwealth Games to be held at the University in 2022 through their technical ability to deliver other such multi-site events for other clients i.e. The London Olympics, The Winter Olympics etc.

The mobilisation planning, logistics, infrastructure, professional and technical support of organisational needs for the Commonwealth Games in addition to the execution and delivery detail from the operating perspective are uniquely provided by RPC through their knowledge and experience of the University of Birmingham and the management of such events.

The specialist understanding of each of these aspects will be a key driver in delivering success for the University of Birmingham.

Due to Covid 19 restrictions planning for the Commonwealth Games 2022 has been challenging and restrictive resulting in delays in decisions and authority to proceed on urgent matters for authority.

It is the intention that for future consultancy after the Commonwealth Games, there will be a full tender process in order to set up a Framework for future provisions.
