Additional information can be obtained from the above-mentioned address

I.6) Main activity

Railway services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

4G Data Connectivity for the provision of Passenger/Staff Wi-Fi onboard trains

Reference number

REQ1000100

II.1.2) Main CPV code

- 64210000 - Telephone and data transmission services

II.1.3) Type of contract

Services

II.1.4) Short description

The purpose of this PIN is to commence market engagement and request information to support the building of a business case for this requirement.

Mobile connectivity solution to provide data services to LNERs fleet of 65 trains using 4G mobile network services

Provide 4G Service on O2 / Vodafone / EE and Three

Provide a managed service for the provision of SIM cards,

Compatible with the Icomera Mobile Gateway (X5)

Detailed monitoring and reporting suite to provide usage data and manage connections

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

LNER is seeking the most advantageous product that will allow to scale services as passenger demand increases and therefore is looking to engage with the market to gain an understanding of what is available.

LNER are open to separate agreements per carrier network or a single agreement that is managed by one supplier to give LNER access to all carrier networks. Due to the nature of the LNER route, there will be more data required from O2 and EE carrier networks than Vodafone and Three.

LNER is looking for a contract to cover minimum volume purchases with fixed bands for increments, e.g. 10TB/month with increments of 500GB as required and/or upfront bundles of data on a “use as you go” and pricing options should be based on cost per GB of data used.

Ideally scaling would be automated or managed for LNER within agreed budgets and consumption would need to be accurately forecast over the contract.

To help with the building of the business case please respond to this PIN by accessing <https://supplierlive.proactisp2p.com/Account/Login> and provide an overview of the relevant services that you offer, including pricing structures.

II.3) Estimated date of publication of contract notice

1 July 2021

Section IV. Procedure

IV.1) Description
