II.2.4) Description of the procurement

Aims and objectives of the service are:

To provide a flexible service model which may change in line with demand due to the impact of COVID 19 and recovery models

To facilitate the early discharge of patients from hospital and community beds and reduce average length of stay.

Reduce the number of inappropriate admissions and readmissions to hospital or

premature admission to long term residential and nursing care by supporting teams within the hospital and community.

To provide reablement and social care input to patients discharged from hospital.

Provide a high-quality service delivered by staff who are appropriately qualified and trained.

Deliver services that are flexible, person centered and provide continuity of care

Provide short term non personal care packages designed to reduce dependence on long term care provision, focusing on the principles of reablement.

Support Wards, Integrated Discharge and Community Teams to follow up patients in the community.

Objectives:

Provide support with discharge planning and transfer of care from hospital and community beds to home environment.

To contribute to reducing risks by supporting discharge follow up

To provide support to undertake activities of daily living using approaches that maximise independent activity and minimise the need for support

To encourage and support maintenance of personal interests

To promote economic wellbeing through advice and information on claiming benefits

To promote independence by supporting and encouraging service users to access facilities and services in their community

To act as an advocate for clients dealing with third parties on discharge from acute and community beds to ensure adequate provision of services and benefits.

To provide a flexible and responsive service which is sensitive to individual preferences and dislikes

To promote a healthier lifestyle.
