### Scope

### Description

Oriel is a joint initiative between Moorfields Eye Hospital NHS Foundation Trust, the UCL Institute of Ophthalmology, and Moorfields Eye Charity. Together, all services at

Moorfields Eye Hospital on City Road and the UCL Institute of Ophthalmology on Bath Street, will be relocated to a new, integrated centre in Camden.

This move is a transformative opportunity to create a world-leading

centre for eye care, research, and education. Harnessing clinical care and research expertise under one roof in a new fit-for-purpose centre will enable closer collaboration between clinicians and researchers to speed up the delivery of treatments and therapies for patients. The centre will deliver the highest-quality clinical care, research and education in an environment that

promotes innovation.

As a new development, Oriel requires the procurement of a comprehensive Hard Services Facilities Management (FM) solution to make the building fully operational. This service will

encompass all engineering hard services related to the building's infrastructure, including:
