- Aligning healthcare services to deliver a joined-up pathway in its entirety.
- Ensuring that non-custodial healthcare is commissioned in a way that supports continuous improvement and innovation.
- Driving self-management and ownership of health to help individuals develop the knowledge, confidence and skills they need to make the best decisions and actions for themselves.
- Ensuring effective stakeholder networks and engagement to capture all views from service users, including OPPCs, Probation, community providers, local authorities, ICB networks.
- Recommissioning across pathways to deliver seamless care from custody diversion through to release back into the community.
- Reducing reoffending at a regional level, ensuring continuity of care
- Consistency in range, quality, accessibility and acceptability with that available to the wider community, in order to achieve equitable health outcomes and to reduce health inequalities between people in the criminal justice system and in the wider community.
