II.1.4) Short description

RBH employs an extensive in-house team across all trades to facilitate the repairs service. However, in order to meet its objectives, to manage the workload and the peaks and troughs in demand, the in-house team requires support from 3rd party independent contractors. We currently have arrangements with a number of such contractors, who provide valued support to the in-house team. This was as a result of a tender exercise conducted in 2017 and resulted in contractual arrangements through an RBH framework with a number of contractors.

The current contracts will end in the summer of this year. The purpose of this tender exercise therefore is to partner with a number of appropriate contractors for work beyond this summer. Through this process we hope to retain the partnership with many of our current valued contractors, and engage with a number of new ones.

The result of this tender exercise will be the renewing of an RBH Framework of contractors covering all the relevant trades, who can support the RBH in-house repairs team as and when required.
