United Kingdom

NUTS code

- UK - United Kingdom

The contractor/concessionaire is an SME

No

VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

Extension of contract by 12 months under Regulation 72 1 (c) given COVID restrictions impact on ability to re-tender with complete risk assessment information. This minimum extension period will allow sufficient time to carry out a robust risk assessments on sites and equipment to support a re-tender process planned late 2022/early 2023 to be in place before expiry of this extension period

VII.2.2) Reasons for modification

Need for modification brought about by circumstances which a diligent contracting authority/entity could not foresee.

Description of the circumstances which rendered the modification necessary and explanation of the unforeseen nature of these circumstances:

Extension required given inability to carry out risk assessments due to COVID restrictions and additionally, volatility of insurance market premiums as a result of lack of updated risk assessments. Risk assessments would have been undertaken in time to support a re-tendering process and are now being scheduled to support the re-tender for next year.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £1,356,775

Total contract value after the modifications

Value excluding VAT: £1,883,994
