II.1.4) Short description

Crown Commercial Service, as the Authority, has put in place an agreement for the provision of printed matter, digital communications and related products for use by Central

Government and UK public sector bodies.

The agreement included multiple routes to market (Direct Award and Further Competition) However, Lot 2 route to market is Further competition only for purchasing print products, digital communications and all associated services to provide an end to end print management service.

The scope included all types of print such as operational, transactional, and secure print, and the associated services such as direct mail, storage, fulfilment and distribution, digital asset management, digital solutions, omni channel communications, content creation, pre-production services, media duplication and official papers.

The lotting structure of this framework was determined as a result of market engagement and is as follows:

Lot 2 Print and Digital Communications (Further Competition)

Further information is included in the Additional Information section VI.3.

On 02/04/2014, Government introduced its Government Security Classifications (GSC) scheme which replaced Government Protective Marking Scheme (GPMS). A key aspect is the reduction in the number of security classifications used. All bidders were required to make themselves aware of the changes as it may impact this requirement.

This link provides information on the GSC at:

<https://www.gov.uk/government/publications/government-security-classifications>

Cyber Essentials is a mandatory requirement for Central Government contracts which involve handling personal information or provide certain ICT products/services. Government is taking steps to reduce the levels of cyber security risk in its supply chain through the Cyber Essentials scheme. The scheme defines a set of controls which, when implemented, will provide organisations with basic protection from the most prevalent forms of threat coming from the internet. To participate in this procurement, bidders were required to demonstrate they comply with the technical requirements prescribed by Cyber Essentials, for services under and in connection with this procurement.
