In 2019 a thorough review of all Voluntary, Community and Social Enterprise (VCSE) Mental health contracts held by the CCG was undertaken and was considered through CCG Governance Processes. The CCG Governing Body recommended that the future of the contracts was considered through the Community Mental Health Programme as services will need to align to future Locality Partnership (LP) models of care. Currently this reflects over 24 contracts (listed below) which are due to end on the 31 March 2023.

In April 2020 BNSSG CCG therefore decided to extend the existing contracts whilst a local model for the CMHP was developed. An initial BNSSG model and timeframe for implementation is now in development, however, a further extension to contracts is required in order to avoid gaps in service during implementation and allow for further opportunities to be explored to develop integrated commissioning solutions.

In April 2021 Governing Body asked that the six Locality Partnerships, in collaboration with the CCG, to make recommendations on the future of these contracts. The majority of recommendations were to extend for one year. As a result, a further process to review contracts with Locality Partnerships has been completed during summer 2022 which has resulted in all contracts being extended.

The recommendations to extend each contract were taken to, and approved by the Locality Delivery Partnership Board (LDPB) and the ICB Finance, Estates and Digital board.

If the ICB had not awarded contract extensions it would significantly increase health inequalities, leaving gaps within the pathway, without a clear alternative in place. Without a clear direction of travel, services may lose staff at a time when people with mental health

problems are at their most vulnerable due to COVID-19. Ending of contracts would not support the system's strategic direction and would not support people with mental health needs, who are particularly disadvantaged during the Covid-19 pandemic. There has also been significant public and patient involvement in the consultation for the CMHP - over 40 events took place over a 3 month period. During, 2021-2022, a process took place to further review all the contracts alongside our six maturing Integrated Care Partnerships in BNSSG. As a result of this review, it was agreed contracts would be extended for a further year to support the development of our local community mental health framework models.

All the relevant Providers are providing a service of acceptable quality that meets the needs and expectation of the ICB and patients. The ICB has no concerns regarding the proposed providers' ability to deliver the service through to the end of their agreed contracted period. . As a result of all of the material factors noted above, the negotiated procedure without prior publication is justified under regulation 32(2)(b)(ii) 'competition is absent for technical reasons'.
