The Council is seeking to establish a Flexible Framework Agreement with external learning providers for the provision of vocational education and skill-based courses for young people across school establishments.

The primary aim of this framework is to enhance the employability skills and post school pathways that will better equip our young people for the world of work. A significant focus of this framework will be to ensure adequate specialist

provision is available for our schools and programmes supporting pupils with complex and additional needs.

A key focus of this provision will be on young people pursuing well designed study courses that:

- better equips young people for the world of work
- meets their clear career aspirations linked to local labour market information
- develop meta skills identified by employers as essential when recruiting young people
- equip young people with the experiences and attributes to develop their employability skills

-have a strong focus on work related learning and occupational development.

-are levelled in the Scottish Credit and Qualifications Framework (SCQF) e.g. City and Guilds, Scottish Qualifications Authority (SQA), Business and Technology Education Council (BTEC), Institute of the Motor Industry (IMI)

This framework will not include vocational and skills-based provision delivered by further education colleges/universities or under school/college partnership arrangements.

Further education colleges, primarily New College Lanarkshire, will provide many vocational education courses for young people in the council's secondary

establishments.

The primary aim of this framework is to enhance the employability skills and post school pathways that will better equip our young people for the world of work. A significant focus of this framework will be to ensure adequate specialist provision is available for our schools and programmes supporting pupils with complex and additional needs.

A key focus of this provision will be on young people pursuing well designed study courses that:

-better equips young people for the world of work

- meets their clear career aspirations linked to local labour market information
- develop meta skills identified by employers as essential when recruiting young people
- equip young people with the experiences and attributes to develop their employability skills
- have a strong focus on work related learning and occupational development.
- are levelled in the Scottish Credit and Qualifications Framework (SCQF) e.g. City and Guilds, Scottish Qualifications Authority (SQA), Business and Technology Education Council (BTEC), Institute of the Motor Industry (IMI)

This framework will not include vocational and skills-based provision delivered by further education colleges/universities or under school/college partnership arrangements. Further education colleges, primarily New College Lanarkshire, will provide many vocational education courses for young people in the council's secondary

establishments.

### **II.2.4) Description of the procurement**

The Council is seeking to establish a Flexible Framework Agreement with external learning providers for the provision of vocational education and skill-based courses for young people across school establishments.

The primary aim of this framework is to enhance the employability skills and post school pathways that will better equip our young people for the world of work. A significant focus of this framework will be to ensure adequate specialist provision is available for our schools and programmes supporting pupils with complex and additional needs.

A key focus of this provision will be on young people pursuing well designed study courses that:

- better equips young people for the world of work
- meets their clear career aspirations linked to local labour market information
- develop meta skills identified by employers as essential when recruiting young people
- equip young people with the experiences and attributes to develop their employability skills
- have a strong focus on work related learning and occupational development.
- are levelled in the Scottish Credit and Qualifications Framework (SCQF) e.g. City and Guilds, Scottish Qualifications Authority (SQA), Business and Technology Education Council (BTEC), Institute of the Motor Industry (IMI)

This framework will not include vocational and skills-based provision delivered by further education colleges/universities or under school/college partnership arrangements. Further education colleges, primarily New College Lanarkshire, will provide many vocational education courses for young people in the council's secondary establishments.

TENDERERS PLEASE NOTE:

.

Late Tenders will not be considered under any circumstances.

--

The Council will not provide additional notification to any Bidder of the rejection of a late Tender.

--

For the avoidance of any doubt, automated messages confirming receipt of a Tender should not be taken to imply acceptance of it by the Council.

.

.

Police Scotland identified a number of business areas that have a high risk of infiltration by Serious and Organised Crime groups; this Framework belongs to one such area and as such the Council reserves the right to include enhanced probity checks prior to any contract award, including sharing tenderer information with Police Scotland.

The tender pack includes a schedule for the Declaration of non-involvement in serious organised crime; this is a mandatory tender submission requirement for all tenderers.

.

The buyer is using PCS-Tender to conduct this PQQ exercise. The Project code is 28578. For more information see:

<http://www.publiccontractsscotland.gov.uk/info/InfoCentre.aspx?ID=2343>

A sub-contract clause has been included in this contract. For more information see:

<http://www.publiccontractsscotland.gov.uk/info/InfoCentre.aspx?ID=2363>

The Contracting Authority does not intend to include any community benefit requirements in this contract for the following reason:

This Flexible Framework is not providing any guarantee of work; any contracts will be across a vast number of learning providers and it is therefore overly complex to achieve useage at this stage and it is anticipated that none of them would reach the threshold where it would be reasonable to expect Community Benefits to be accrued.

.

The nature of this Framework already has benefits to the community ingrained within it as the sole purpose is to enhance the employability skills and post school pathways that will better equip our young people for the world of work. A significant focus of this Framework will be to ensure adequate specialist provision is available for our schools and programmes supporting pupils with complex and additional needs.
