The UofG Information Security team establishes the policy, toolset, and oversight for robust defence against cyber threats. Cyber security alerts are generated around the clock, given the University's extensive online operations. The University has adopted Office 365 Education A5 Licensing and currently leverages Microsoft Sentinel as a SIEM and alerting tool. In addition to Sentinel's native and Microsoft 365 Defender alerts, we also incorporate Suricata IDS and select Windows log-based events. These are likewise

accessible to UofG staff through the console.

We necessitate services encompassing Security Operations Centre with Microsoft XDR capabilities as well as an Incident Response retainer to bolster our cybersecurity posture.

A partner is required assist with the operations and engineering tasks associated with the monitoring of this system in a 24x7x365 fashion. Actioning agreed alerts according to UofG playbook specifications (this could include a wide range of responses including, isolation machine with malware, flagging email accounts as compromised, initiating remote forensic investigations)

We are also seeking a partner to provide additional Threat Hunting, Threat Intelligence and advice on security best practice and design for gathering further security telemetry from a diverse set of technologies such as additional server-based log sources, Sophos Central, Cisco Firepower and InfoBlox. To help us further increase our visibility and security posture.

We additionally require Incident Response capability to be offered via retainer.

Refer to ITT document for detailed specification.

Once the deadline has passed submissions can neither be created nor submitted. It is not advisable for Suppliers to wait until the last moment before creating and dispatching a response in case of any last minute problems. Please note large files should be uploaded as early as possible to ensure transfer before deadline. If a Supplier is having problems uploading to the PCS site, then the University must be informed well in advance and depending upon the merit of the case, the University may arrange for the tender to remain open on the PCS system for a short period after the deadline time stated. System problems do not fall under the University's remit and should be referred to PCS.

Postbox Security: Postbox submissions cannot be accessed by anyone, including Millstream, (the provider of the Public Contracts Scotland system) until the deadline.
