## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

Supply of Remote Telemetry Units (RTUs)

Reference number

SW20/CI/1285

#### **II.1.2) Main CPV code**

- 32440000 - Telemetry and terminal equipment

#### **II.1.3) Type of contract**

Supplies

#### **II.1.4) Short description**

Scottish Water (SW) is looking for Remote Telemetry Units (RTUs) suppliers.

The scope of the framework will include but will not be limited to the design, supply of RTUs and associated components, training, technical and development support.

The telemetry master station (TMS) is provided by Emerson and is Open Enterprise (OE) with specific SW variants. The TMS has been installed to meet SW requirements. The RTU manufacturer has to have certification issued by Emerson confirming their device is suitable for operation with SW TMS. The RTU device has to be capable of communicating with the TMS version 2.52 up to and including version 3.36.

It's anticipated that the TMS might change within the life of the framework and the requirement for RTU supply will be re-procured based on the TMS change.

---

## **VII.2) Other additional information**

Scottish Water will not accept the ESPD. We will only accept a completed Scottish Water PQQ document. This Notice does not preclude Scottish Water from issuing other notices for specific requirements. Responses to the OJEU Notice will be evaluated and only successful applicants following PQQ evaluation will be invited to submit a tender. Scottish Water reserves the right to divide the scope of the contract into lots at tender and contract award stages as it deems appropriate. Applicants who fail to supply all of the information requested in response to this Notice or any resulting tender exercise may risk elimination.
