Description

As part of the contractual requirements of the Public Service Contract (PSC) with West Midlands Combined

Authority (WMCA), Midland Metro Limited (MML) are required to undertake and complete a 5-yearly asset

condition survey.

MML, therefore requires an independent and expert assessment of the West Midlands Metro (WMM) network

assets to provide an unbiased, high-level understanding of the overall condition, performance, and remaining

lifecycle of infrastructure and rolling stock. The findings will serve as a key tool for planning strategic renewals,

prioritising maintenance efforts, and engaging with Transport for West Midlands (TfWM) on renewal and

investment decisions in the future.

This specification and Annex's are intended to present evidence-based insights to align MML's asset

management strategy and ensure sustainability and safety across the network.
