II.2.4) Description of the procurement

This proposed work area is for Outstanding Teaching Learning and Assessment (OTLA) and is detailed more fully in our draft specification (attached). It is summarised below:

Programme Summary Aims

OTLA is one of the ETF's longest running programmes of Continuing Professional Development (CPD). The nature and format of the programme have evolved over time, but it continues to be based around a set of central principles:

There is an overall focus on improving outcomes for learners

There is collaboration within and across providers

Activity is research informed and draws on appropriate expertise

It takes place over a sustained period of time

Activity is evaluated to assess the impact on learners

The ETF are seeking (a) delivery partner(s) who will be able to develop and expand the programme further. There are two strands of activity are:

1. The development and delivery of a national programme of CPD to enable English, English for Speakers of Other Languages (ESOL) and Essential Digital Skills (EDS) teachers to undertake collaborative action research projects.
2. The design and pilot of two FutureLearn courses: one on how to conduct action research in Further Education and one on how to lead or support action research projects in Further Education settings.
