Description

Trent & Dove Housing is seeking to appoint a suitably qualified and experienced Service Provider to deliver an Electrical Rewiring programme across its housing stock.

The scope of the Contract includes, but is not limited to: full and partial electrical rewires, consumer unit replacements, earthing and bonding upgrades, replacement and installation of electrical accessories, installation or upgrading of smoke, heat and carbon monoxide alarms where required, and all associated inspection, testing, certification and compliance activities.

Works will be undertaken in both occupied and void residential properties and must be delivered in accordance with BS 7671 (current edition), the Electricity at Work Regulations 1989, CDM Regulations 2015, and all other applicable statutory and regulatory requirements.

The Service Provider will be responsible for surveys, safe isolation, installation, making good, resident liaison, documentation and the submission of all certification and photographic evidence via the Contracting Authority's compliance management systems.

The Contract will operate on a programme-based delivery model with no guaranteed volume of work. Properties will be released in batches in line with compliance priorities and available budgets.

The Contract is anticipated to be awarded for an initial term of three (3) years, with the option to extend for up to a further two (2) years, subject to performance.

Total value (estimated)

- £1,666,667 excluding VAT
- £2,000,000 including VAT

Below the relevant threshold

Contract dates (estimated)

- 1 August 2026 to 31 July 2029
- Possible extension to 31 July 2031
- 5 years

Description of possible extension:

The Contract will be awarded for an initial term of three (3) years. The Contracting Authority reserves the right, at its sole discretion, to extend the Contract for up to a further two (2) years, which may be exercised as either a single two-year extension or as two separate one-year extensions.

Any extension will be subject to satisfactory performance against the Contract Key Performance Indicators, continued compliance with contractual and statutory requirements, and the ongoing operational and budgetary requirements of the Contracting Authority.

The extension option does not create any obligation on the Contracting Authority to extend the Contract, nor does it guarantee any minimum volume or value of work during the initial term or any extension period.

Where an extension is exercised, the Contract shall continue on the same terms and conditions as the original Contract, including pricing, unless otherwise expressly permitted under the Contract and agreed in writing by the Contracting Authority.

Options

The right to additional purchases while the contract is valid.

The Contract includes options to extend the term and to instruct additional works within the overall scope of the Contract.

The Contract will be awarded for an initial term of three (3) years. The Contracting Authority may, at its sole discretion, extend the Contract for up to a further two (2) years, which may be exercised as either a single two-year extension or as two separate one-year extensions.

In addition, during the Contract term (including any extension period), the Contracting Authority may instruct additional electrical rewiring works within the scope defined in the Contract Documents, subject always to the maximum contract value stated in the tender notice.

The exercise of any option is subject to satisfactory contractor performance, ongoing compliance with contractual and statutory requirements, and the continued operational and budgetary requirements of the Contracting Authority. The inclusion of options does not create any obligation to extend the Contract or to instruct any minimum volume or value of work.

Participation

Conditions of participation

Participation is open to suitably qualified and experienced economic operators able to demonstrate the technical, professional and financial capacity to deliver the electrical rewiring works in accordance with the Contract Documents.

Tenderers must demonstrate compliance with all applicable statutory and regulatory requirements, including but not limited to BS 7671 (current edition), the Electricity at Work Regulations 1989, CDM Regulations 2015, and relevant health and safety legislation.

Tenderers must hold, or commit to holding prior to contract commencement, appropriate accreditations and registrations relevant to the delivery of electrical installation and certification works, including registration with a recognised electrical certification body (e.g. NICEIC or equivalent).

Tenderers must demonstrate experience of delivering similar works in occupied residential properties, appropriate arrangements for resident liaison, and the ability to submit certification and compliance data in line with the Contracting Authority's systems and requirements.

Minimum insurance, financial standing, staffing competence and performance requirements are set out in the Invitation to Tender and associated Contract Documents.

Particular suitability

Small and medium-sized enterprises (SME)

Submission
