II.1.4) Short description

The council invites interested suppliers to register their interest to participate in the procurement process. Suppliers are invited to submit their interest to the procurement@adur-worthing.gov.uk by 3rd May 2023.

General Requirements: 26/27t Trade Bata lift RCV, 6x2 configuration.

Vehicle Qty: 2. The vehicles should be available and delivered to the Council within 1-3 weeks. Vehicle age: 3-4 years old.

This is the desirable specification of the vehicle that the council would anticipate to procure; Low mileage (to be specified based on the expected use of the vehicle). Vehicle make: Dennis (preferred but not essential). Vehicle model: To be specified by the supplier based on the council's requirements and availability. The vehicle should comply with all relevant safety and environmental standards. Body and Lifting Equipment: Trade Bata lift body with a minimum capacity of 500kg. The body should be constructed of high-quality materials to ensure durability and longevity. The lifting equipment should be capable of lifting and emptying containers with ease and accuracy up to 1100ltrs. On-Board Weighing: The vehicle should be equipped with an on-board weighing system to accurately weigh containers as they are lifted. The weighing system should be capable of displaying the weight on a screen desirable. The system should be calibrated and certified by a relevant authority. CCTV: The vehicle should be equipped with a CCTV system to provide the driver with clear visibility around the vehicle, including blind spots. The CCTV system should include a monitor in the driver's cab. The system should be capable of recording footage for evidential purposes. Engine and Transmission: The vehicle should be powered by a diesel engine. The engine should comply with relevant environmental standards. Cab and Interior: The driver's cab should be comfortable and ergonomically designed. The cab should be fully enclosed with air conditioning and heating. The vehicle should be equipped with a reversing camera. Warranty and Service: The supplier should provide a warranty for the vehicle and its components. The supplier should offer a maintenance and service package for the vehicle. The supplier should provide training to the operator on the safe and proper use of the vehicle and its equipment.
