We operate across four regions: East of England, North London, North West, and West Midlands. We are proud to be at the heart of heat and we work closely with our communities to keep them safe, warm, and connected, providing extra care for those who might need it in a gas emergency. We maintain, repair, and replace gas pipes to ensure the safe and reliable flow of gas now and long into the future. We manage the national gas emergency number on behalf of the gas industry, responding to gas escapes and repairing leaks.
