I.2) Information about joint procurement

The contract involves joint procurement

The contract is awarded by a central purchasing body

I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Education

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

(NU/1433-29) Clean Hydrogen Limited: The Provision of Business Consultancy to Assist Commercialisation of University Research.

Reference number

DN593034

II.1.2) Main CPV code

- 79400000 - Business and management consultancy and related services

II.1.3) Type of contract

Services

II.1.4) Short description

Clean Hydrogen is a company with technology offering a solution to reducing the cost of hydrogen to help meet climate change challenges. One of the main challenges associated with the UK's (and global) energy sector, in the medium term, is to decouple fossil fuels from the increasing demands for energy while ensuring supply chain security.

The initial brief of the executive will be to:

Phase (1) Produce a viable 5-year business plan and pitch deck;

Phase (2) Bring together the required collaboration team for producing a demonstrable minimum viable product;

Phase (3) Support preparation of company spin-out approval documents to present to University exec board

Phase (4) Complete the formation of the Spin-out

a. Act for the company in the spin-out legal process and address all company formation matters;]

b. Obtain founder academics and University approval for appointment as CEO.

Phase (5) Secure (venture capital and other) funding. Produce the funds by which the new start-up company can consider employing the executive going forward. It is expected, and the intent of the scheme, that the Executive will remain with the business following the end of the contract period. However, such appointment will be at the discretion of the board and university and will be subject to confirmation, typically at Stage 4 above]

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £30,000

II.2) Description

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

Clean Hydrogen is a company with technology offering a solution to reducing the cost of hydrogen to help meet climate change challenges. One of the main challenges associated with the UK's (and global) energy sector, in the medium term, is to decouple fossil fuels from the increasing demands for energy while ensuring supply chain security.

- UK - United Kingdom

The contractor is an SME

Yes

V.2.4) Information on value of contract/lot (excluding VAT)

Initial estimated total value of the contract/lot: £30,000

Total value of the contract/lot: £27,000

Section VI. Complementary information

VI.4) Procedures for review

VI.4.1) Review body

Newcastle University

Tyne and Wear

NE1 7RU

Country

United Kingdom

VI.4.2) Body responsible for mediation procedures

Newcastle University

Tyne and Wear

Country

United Kingdom

VI.4.3) Review procedure

Precise information on deadline(s) for review procedures

The University will incorporate a standstill period at the point information on the award of the

contract is communicated to tenderers. That notification will provide full information on the award decision. The standstill period, which will be for a minimum of 10 calendar days, provides time for unsuccessful tenderers to challenge the award decision before the contract is entered into.

The Public Contracts Regulations 2015 (SI 2015 No 102) provide for aggrieved parties who

have been harmed or are at risk of harm by a breach of the rules to take action in the High

Court (England, Wales and Northern Ireland) within 30 days of knowledge or constructive knowledge of breach.

VI.4.4) Service from which information about the review procedure may be obtained

Newcastle University

Tyne and Wear

NE1 7RU

Country

United Kingdom
