The RSSB is seeking to procure a Platform Verification Service - Quality Management System. The current Railway Industry Supplier Qualification Scheme (RISQS) was developed to assist buyers search for suppliers working or wishing to work within Great Britain's (GB) Railway Industry by providing a fair, open and transparent third-party qualification process. RISQS helps to reduce the duplication of effort that organisations see from capability checks (e.g., selection questionnaires SQ) and systems assessments) carried out by multiple buyers. It gives suppliers of all sizes an equal opportunity to demonstrate their capabilities and market their products and services whilst ensuring compliance to cross industry standards. RISQS services include collection of the industry's supplier selection questionnaire, verification of the data provided and audits for suppliers that have indicated they provide services that require audit. The electronic collection and verification of data Services. This procurement represents the Platform aspect of the verification service, and it is intended there will be a further procurement for the Maintenance and Customer Service later to complete the Quality Management System
