- 72244000 - Prototyping services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

Digital Programmes will provide Supplier Staff to deliver strategic objectives through group(s) of projects that involve research, test, design, build, release, iteration, support and/or retirement of digital services, outcomes and deliverables. Buyers will define their specific requirements covered by the programme in their Statement of Requirements.

The Supplier must work according to:

the Technology Code of Practice,

and understand what it means to work on one of the Discovery, Beta, Live or Retirement phases described in the Service Manual. and support Buyers:

to comply with the above through successful Service Standard assessments:

<https://www.gov.uk/service-manual/digital-by-default>

to develop Services based on Open Standards Principles and accessible data protocols, to ensure they are interoperable: <https://www.gov.uk/government/publications/open-standardsprinciples/open-standards-principles>

to comply with any adopted open standards that are compulsory in government: <http://standards.data.gov.uk/challenges/adopted> Suppliers under this Lot are required to have the capability and capacity to provide the following Service Provisions that will comprise the group(s) of related projects to achieve the strategic objectives of a programme:

DevOps Services support for ongoing live services;

Digital Definition Services. Either separately or combined Discovery and /or Alpha phases;

Build and Transition Services either separately, combining Beta phase and/or Retirement phases (including transition to Live). It is anticipated that Live will be covered by an appropriate competition for DevOps Services;

End-to-End Development Services with the ability to combine the full set of agile phases of Discovery through to Live; and

Data Management (and similar) Services primarily targeted at building, enhancing and maintaining data assets, migrating data from one system to another and analysis and reporting from such data assets.

II.2.5) Award criteria

Quality criterion - Name: Quality / Weighting: 70

Price - Weighting: 30

On 2.4.2014 Government introduced its Government Security Classifications (GSC) scheme which replaced Government Protective Marking Scheme (GPMS). A key aspect is the reduction in the number of security classifications used. All bidders were required to make themselves aware of the changes as it may impact this requirement. This link provides information on the GSC at:

<https://www.gov.uk/government/publications/government-security-classifications>

Cyber Essentials is a mandatory requirement for Central Government contracts which involve handling personal information or provide certain ICT products/services. Government is taking steps to reduce the levels of cyber security risk in its supply chain through the Cyber Essentials scheme. The scheme defines a set of controls which, when implemented, will provide organisations with basic protection from the most prevalent forms of threat coming from the internet. To participate in this procurement, bidders were required to demonstrate they comply with the technical requirements prescribed by Cyber Essentials, for services under and in connection with this procurement.

Some purchases under this framework Agreement may have requirements that can be met under this Framework Agreement but the purchase of which may be exempt from the Procurement Regulations (as defined in Attachment 1 – About the framework within the invitation to tender documentation). In such cases, Call-offs from this Framework will be unregulated purchases for the purposes of the Procurement Regulations, and the buyers may, at their discretion, modify the terms of the Framework and any Call-off Contracts to reflect that buyer's specific needs.

CCS reserve the right to award a framework to any bidder whose final score is within 1% of the last position.

For Lot 1 51 suppliers were awarded a place as opposed to the number of 50 as was originally stated in the Contract Notice that was published on 27/10/20.

For Lot 2 51 suppliers were awarded a place as opposed to the number of 50 as was originally stated in the Contract Notice that was published on 27/10/20.

The start date of this Framework Agreement is 21/03/2022. The expiry date of the Framework Agreement is 20/03/2024. The initial duration of the Framework is 2 years, with an option to extend for 12 months plus additional 12 months.
