VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

Novation of Primary Care Pathology Services from a separate contract with the named Trust into the single contract with the same provider.

VII.2.2) Reasons for modification

Need for additional works, services or supplies by the original contractor/concessionaire.

Description of the economic or technical reasons and the inconvenience or duplication of cost preventing a change of contractor:

Including the GP direct access pathology services into the main acute contract

Retention of the primary care pathology service within the acute trusts supports stability of the acute pathology service, which in turn supports the stability of the emergency department.

-Allows certainty for planning purposes

-Allows East Coast Pathology Network to progress with plans as an accelerated rate due to the certainty around the contracts in the acute.

-Retains the service within the acute trusts which will mitigate the risk of the following:

- Realisation of exit costs which would be payable if the service were to move away from the acute trusts

- Duplication of services if elements were to be split
- Retains scarce pathology human resource within one service and prevents duplication of roles
- Prevents disaggregation of IT and records
- Realisation of unknown risks

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptions and average inflation)

Value excluding VAT: £645,898,869

Total contract value after the modifications

Value excluding VAT: £646,328,618
