II.1) Scope of the procurement

II.1.1) Title

TfWM Regional Strategic Model

II.1.2) Main CPV code

- 48000000 - Software package and information systems

II.1.3) Type of contract

Supplies

II.1.4) Short description

Market Engagement

The aim of this project is to provide a step-change improvement in transport planning across the West Midlands, allowing Transport for West Midlands (TfWM) and its partner Highway Authorities to accurately consider comprehensive information and insights about the likely impacts of schemes and policies in the region. It should also provide valuable insight into existing travel behaviours and patterns that can be readily abstracted from basic observations of the transport system. This project also aims to provide additional insight which can support the targeted promotion of new mobility services to end users.

The expectation is that the RSM will utilise a mixture of existing market platforms and bespoke services, which may be licensed from the supplier or third parties.

As well as the WMCA, the RSM may be utilised by other public bodies and the wider supply chain of suppliers to the WMCA and the other public bodies.

WMCA has scheduled a supplier engagement meeting on April 25th, 2023 at 10am which will take place on MS Teams. The purpose of the meeting is to provide an overview of the ITT, project timeline, and a brief introduction to the project. To be invited to the meeting, please express your interest to us via email. Contact details can be found in section I.1

II.1.5) Estimated total value

Value excluding VAT: £2,500,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description
