II.2.4) Description of the procurement

Moat Homes Limited (Moat) is seeking expressions of interest from suitably skilled and experienced Service Providers to fulfil the requirements of a new Property Repairs and Maintenance Contract to its housing portfolio of c.20 000 properties. This will be a TPC 2005 (as amended) Contract, which will run for an initial period of 10 years, with options to extend.

Moat is procuring the new Contract using a Competitive Dialogue procedure, in accordance with the Public Contracts Regulations 2015 (as amended).

The Contract will initially comprise responsive repairs and out-of-hours services, with the possibility of works to void properties also being included from the commencement of the contract. It is further anticipated that additional, property-maintenance related services may be added to the Contract during its term, subject to agreement and satisfactory performance. Moat requires Service Providers to primarily undertake works in-house with a directly employed workforce and low levels of sub-contracting.

Moat is open to considering different commercial models and will initially be seeking submissions on the basis of both SoR and PPP/PPV models, with a final approach being agreed during the dialogue phase of the procurement.

Organisations seeking to participate in the process must complete in full the Selection Questionnaire (SQ) and return this no later than the deadline stated in IV.2.2. Moat will evaluate the returned SQs as set out within the procurement documents and envisages short-listing a maximum of 6 Service Providers to be Invited to Submit Detailed Solutions (ISDS). Following evaluation of the ISDS submissions received, Moat anticipates inviting 3 Service Providers to participate in Dialogue and submit Final Tenders. Full details are provided in the procurement documents available to download from the Housing Procurement Portal.
