For each specific geographical region lot Contractors MUST be able to provide the services in at least five of the sub regions (Counties) listed. Eight Contractors have been appointed to each of the sub lots. The defined geographical lots will be used by our Members who sit within one defined region or who have a requirement within one defined region.

The main requirements under the EEM0009 Electrical Repairs, Maintenance & Installation Framework are to provide the following services for electrical repairs, rewires and periodic testing on all identified electronic installations as well as the installation of electric heating, PAT Testing and assist with solar maintenance to be readily available across the areas that we cover either by direct award or via mini competition.

All successful bidders from this Frameworks must be able to cover the services below as a minimum but not limited to:

- EICR Tests and Inspections
- PAT Testing
- Solar Photovoltaic (PV Installation & Maintenance)

- Repairs and Replacement of Equipment
- Electrical Installation and Re-wires
- Electrical Heating
- Fixed Appliance Testing
- Thermal Imaging of Distribution Boards
- Electric Vehicle Charging Points Maintenance
