The system will need to be accessible to a wide-ranging audience as well as being overseen and supported by NCC staff. DPSS is looking for a new PA Register software that can provide the following benefits: • Improve the recruitment process efficiency and reporting. • Ensure compliance with the UK Employment law and discrimination laws. • Enhance the user experience and satisfaction of the DPSS clients and staff, by providing online access, self-service options, and timely communication. • Reduce the operational costs and risks associated with the recruitment of PA's. • Support the growth and development of the DPSS and its services.
