II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

There is limited competition in the radiopharmaceutical market, Greater Glasgow and Clyde require radiopharmaceutical medical equipment and consumables (DATSCAN/injections/capsules) to carry out specific diagnostic treatments. Therefore for reasons of compatibility and continuity in delivering quality patient care, no other supplier can provide the equipment and consumables other than the incumbent supplier. Due to current timescales, to initiate a procurement exercise would lead to disruption and a negative impact on patient care.

To note, as part of Greater Glasgow and Clyde work plan 2023/2024, radiopharmaceuticals and their associated materials and consumables is to be reviewed and tendered.

As a result of the above, we will now enter into a standstill period of 10 days, concluding on the 11th April and proceed to award the agreement on the 12th April 2023.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section V. Award of contract/concession

Contract No

GGC0814
