Emergency call out and Minor works

Mining Remediation Authority

UK2: Preliminary market engagement notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-009454

Procurement identifier (OCID): ocids-h6vhtk-04ed56 ([view related notices](#))

Published 14 March 2025, 1:54pm

Scope

Description

The Mining Remediation Authority (Coal Authority) was established by Parliament to undertake specific statutory duties, set out in the Coal Industry Act 1994, associated with licensing coal mining operations; managing property and the historic legacy arising from the ownership of the coal reserves and underground workings; settling subsidence damage claims not falling on coal mine operators and providing access to coalmining information.

The Mining Remediation Authority (Coal Authority) has a legal duty under the Coal Mining Subsidence Act 1991, to repair properties damaged by mining subsidence in the five coalfield regions and where ever historic mining has taken place across the United Kingdom.

The Mining Remediation Authority (Coal Authority) employs over 300 people, based mainly at the head office in Mansfield with some field staff remotely based in order to enable a fast response to incidents in mining areas.

The Mining Remediation Authority (Coal Authority) is funded by grant in aid from the Department of Energy Security and Net Zero (DESNZ)

The Mining Remediation Authority (Coal Authority) is issuing this Prior Information Notice as part of a wider Market Engagement piece in order to inform interested parties of our need for Emergency Fencing call outs and remediation works to land or property which has been impacted by historic mining.

We are seeking to engage with suitably experienced and qualified partners who can help us with Emergency Fencing callouts as well as remediation to land & repairs to buildings which have been impacted by historic mining.

The Mining Remediation Authority (Coal Authority) is seeking partners who are able to work with us protecting communities who live above areas of historic mining. Works associated with this framework could include but are not limited to:

Fencing off surface hazards on an emergency on call basis

Ground Remediation

Repairs to Structures & Buildings which have been damaged as a result of historic mining

Minor to medium sized planned works in areas impacted by historic mining

Reactive works to ensure public safety

Maintenance of disused and historic Coal Tips

Repairs and maintenance to Metal mine water treatment courses

Commercial tool

Establishes a framework

Engagement

Engagement deadline

1 February 2025

The engagement was carried out before this notice was published.

Engagement process description

Under PCR2015 a Prior Information Notice (2024/S 000-040068) was published on the 12th of December.

An online portal for registering interest was included in this PIN.

Interested organisations were invited to register their details for updates on coming engagement.

Regional Engagements were held in Cardiff on the 15th of January 2025 and Newcastle Upon Tyne on the 30th of January 2025. Communication of our requirements was via presentation.

The scope of the engagement included our requirements supported by previous examples of the range of work which would be required under this framework.
