II.1.4) Short description

Working collaboratively, PfH and Building Better are seeking to implement a Dynamic Purchasing System (DPS) for MMC Category 2 construction systems. The intent is that the DPS will further support the shift in positioning Modern Methods of Construction as a mainstream solution for the development of new homes. In doing so we hope to push the boundaries of design standards with innovative, future-proofed solutions that achieve the highest environmental and sustainability standards. Further details are contained within the associated project documents, which will be available to download once an expression of interest has been lodged.
