### II.1) Scope of the procurement

#### II.1.1) Title

Geological Interpretation

Reference number

**RWM679** 

#### II.1.2) Main CPV code

• 71351200 - Geological and geophysical consultancy services

#### II.1.3) Type of contract

Services

#### II.1.4) Short description

RWM require access to specialist resources within the supply chain which have expertise in a diverse range of interpretation techniques, geological settings and industry backgrounds, in order to develop a comprehensive understanding of potential GDF locations to support the Site Evaluation Process. At this stage the requirement is to use legacy data and RWM's soon to be acquired 2D and 3D seismic datasets to perform a series of geological interpretations which will begin the process of characterising the potential host rock volume. The Primary focus of this task is to interpret the available seismic data to produce a detailed understanding of the geometry and stratigraphy of the potential host rock volume, a secondary element is to combine this with legacy borehole data to enhance the characterisation. Additional aspects of the work which RWM may wish to discuss would include the use of other techniques such as rock physics and seismic inversion alongside geological modelling

#### II.1.5) Estimated total value

Value excluding VAT: £2,000,000

#### II.1.6) Information about lots

This contract is divided into lots: No

### II.2) Description

#### II.2.2) Additional CPV code(s)

- 71351220 Geological consultancy services
- 71351730 Geological prospecting services
- 71351913 Geological exploration services
- 71352100 Seismic services
- 71352130 Seismic data collection services
- 71352140 Seismic processing services

#### II.2.3) Place of performance

**NUTS** codes

• UK - United Kingdom

#### II.2.4) Description of the procurement

This Prior Information Notice is to signal an intention to commence market engagement with those within the relevant professional services market and to alert the market to potential forthcoming tender exercise(s).

RWM require access to specialist resources within the supply chain which have expertise in a diverse range of interpretation techniques, geological settings and industry backgrounds, in order to develop a comprehensive understanding of potential GDF locations to support the Site Evaluation Process.

At this stage the requirement is to use legacy data and RWM's soon to be acquired 2D and 3D seismic datasets to perform a series of geological interpretations which will begin the process of characterising the potential host rock volume.

The Primary focus of this task is to interpret the available seismic data to produce a detailed understanding of the geometry and stratigraphy of the potential host rock volume, a secondary element is to combine this with legacy borehole data to enhance the characterisation. Additional aspects of the work which RWM may wish to discuss would include the use of other techniques such as rock physics and seismic inversion alongside geological modelling etc...

RWM anticipate, that due to the complexity of some sites, there will be a range of possible interpretations and therefore are particularly keen to understand their probability and uncertainty.

#### II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

#### II.2.6) Estimated value

Value excluding VAT: £2,000,000

### II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

#### II.2.14) Additional information

RWM intends to hold market engagement sessions through May 2021 and June 2022 with industry experts and suppliers interested in potentially bidding for the resulting commercial agreement(s).

Please express your interest to be involved in this market engagement process by responding to this notice via the messaging function.

# Section IV. Procedure

# **IV.1) Description**

## IV.1.1) Type of procedure

Restricted procedure

# IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

# IV.2) Administrative information

### IV.2.2) Time limit for receipt of expressions of interest

Date

6 May 2022

Local time

12:00pm

### IV.2.4) Languages in which tenders or requests to participate may be submitted

English
