## Scope

## Reference

NSD Project

## Description

The project will collate national and international knowledge and practices on appropriate radioactive substance regulation permit requirements (e.g. relating to facility design, waste inventory, waste activity concentration, heterogeneity) for different near surface disposal facilities and settings to assist in making informed decisions on permit requirements. Project completion is scheduled for the end of August 2025.

## Total value (estimated)

- £47,840 excluding VAT

- £57,408 including VAT

Below the relevant threshold
