Safeguarding Support for Covid-19 Inquiry

Reference number

RM6355

II.1.2) Main CPV code

- 85312300 - Guidance and counselling services

II.1.3) Type of contract

Services

II.1.4) Short description

The Cabinet Office has put in place contracts for the provision of Emotional Support service for use by the Covid 19 Inquiry.

The Inquiry has pledged to be trauma-informed across all of its work. A trauma informed

approach means seeking to reduce the risk of retraumatisation to people who are engaging with the Inquiry. Emotional support is one of the key ways of reducing retraumatisation by offering timely, sensitive, psychologically informed emotional support to people engaging with the Inquiry's work. Emotional support is not counselling or therapy. The focus is on facilitating the person's engagement with the Inquiry, creating support plans, facilitating stabilisation, providing psychological containment and facilitating the person's journey through their engagement process.

These contracts provide the offer of emotional support for everyone engaging with the Inquiry.

II.1.6) Information about lots

This contract is divided into lots: Yes

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £3,267,134.42

II.2) Description

- 3) Transparency Agenda

On 02/04/2014, Government introduced its Government Security Classifications (GSC) scheme which replaced Government Protective Marking Scheme (GPMS). A key aspect is the reduction in the number of security classifications used. All bidders were required to make themselves aware of the changes as it may impact this requirement. This link provides information on the GSC at:

[https://www.gov.uk/government/publications/government-security-](https://www.gov.uk/government/publications/government-security-classifications) classifications

Cyber Essentials is a mandatory requirement for Central Government contracts which involve handling personal information or provide certain ICT products/services. Government is taking steps to reduce the levels of cyber security risk in its supply chain through the Cyber Essentials

scheme. The scheme defines a set of controls which, when implemented, will provide organisations with basic protection from the most prevalent forms of threat coming from the internet. To participate in this procurement, bidders were required to demonstrate they comply with the technical requirements prescribed by Cyber Essentials, for services under and in connection with this procurement.
