II.2.4) Description of the procurement at the time of conclusion of the contract:

A service is required to provide outcomes for the Health Transformation Programme, specifically around managing citizen appointments for Health Assessments and how agents view the citizens data. A Digital Outcomes Contract was awarded to BJSS in January 2021 to provide this service. This contract was for 24 months, with a total value of £3,916,667. The contract was recomputed in December 2021 as the contract had been a success and demand for the services outstripped the overall contract value. A new supplier was selected in January 2022. To ensure we transition effectively to the new supplier and protect delivery for the Health Transformation Programme, the contract value with BJSS has been uplifted by £1,000,000 including recoverable VAT, which is not more than 50% of the original value. There is no requirement to extend the duration of the Contract, which runs to 24th January 2023. The uplift in value will facilitate handover and knowledge transfer from the incumbent to the new supplier. The new supplier is expected to be fully transitioned to continuing delivery of the service by end of May 2022/beginning of July 2022.

The key aspects of the process of transitioning from one supplier to another in the Digital Health environment are:

Supplier Onboarding

- Provision of kit
- Access to environments

Knowledge transfer

- Understanding the problem DWP is trying to solve in detail
- Explaining the DWP context
- Understanding the specific products involved in the development and the service design

Interacting with incumbent provider

- Introducing the new provider to the physical code
- Showing the new provider the repositories holding the code
- Explaining test cycles and release approach
- Period of dual running between incumbent and new provider to ensure seamless transfer and confirm transfer complete

VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

A Digital Outcomes Contract was awarded to BJSS in January 2021 to provide outcomes for the Health Transformation Programme, specifically around managing citizen appointments for Health Assessments and how agents view the citizens data. This contract was for 24 months. The contract was recompeted in December 2021 as the contract had been a success and demand for the services outstripped the overall contract value. and confirm transfer complete

VII.2.2) Reasons for modification

Need for additional works, services or supplies by the original contractor/concessionaire.

Description of the economic or technical reasons and the inconvenience or duplication of cost preventing a change of contractor:

To ensure we transition effectively to the new supplier and protect delivery for the Health Transformation Programme, the contract has been uplifted from £3,916,667 to £4,916,667. In the event all the SOWs are recoverable then there can be up to £1M in additional contract value. If the SOWs are not recoverable then the value of SOWs will be reduced, potentially down to the £833K.

If the above approach was not adopted, the impacts would be:

All development work to be halted or significantly slowed whilst new teams had a full and comprehensive knowledge transfer.

- This is anticipated to take around 4 weeks
- This would result in a doubling of costs with no output or outcomes for this period.
Essentially lost benefit
- Pace of delivery post KT would be significantly slower meaning delivery date would move by a minimum of 4 weeks.
- On this basis, a 10 week deliverable has now become 18 weeks minimum.
- Financial losses circa £425k plus the original cost to deliver (8 weeks delay=£275k).

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £3,916,666.67

Total contract value after the modifications

Value excluding VAT: £4,916,666.67
