- 90712300 - Marine conservation strategy planning
- 73110000 - Research services
- 90722000 - Environmental rehabilitation

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

United Kingdom

II.2.4) Description of the procurement

The existing Long Term Service Agreement framework will expire 31 March 2025. Defra sought a replacement commercial arrangement to provide critical scientific evidence and contingency services to support its policy making and operational responsibilities including emergency response capabilities in relation to food and the environment. The contract is also used by other government departments, including but not limited to the Food Standards Agency and the Home Office. The supplier has the ability to deliver reliable, high-quality business and scientific services competitively; well-proven transition and

transformational capabilities within challenging timeframes; and possesses a vision and commitment to enhance relevant scientific capability into the future. The seamless continuation of services is essential due to statutory requirements, and Defra therefore must have a supplier that has the required capabilities in place within the timescales outlined.

The contract is awarded for an initial period of five years and has the option to extend for an additional five years (+2+1+1+1).

II.2.5) Award criteria

Quality criterion - Name: Quality / Weighting: 45

Quality criterion - Name: Sustainability / Weighting: 10

Cost criterion - Name: Price / Weighting: 45

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated without a prior call for competition

- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

Defra intends to direct award a contract using the negotiated procedure without prior publication, in accordance with Regulation 32(2)(b)(ii) (competition absent for technical reasons) of the Public Contracts Regulations 2015.

The current contract will expire on 31 March 2025 and this contract must be made to ensure critical statutory specialist science and contingency services continue to be provided. This contract will be awarded to Fera Science Limited for the provision of specialist science and contingency services.

To inform its decision-making, Defra has undertaken three rounds of market engagement with interested suppliers. Before each round, it has published a prior information notice (PIN), ensuring that all interested suppliers are aware of the re-procurement and have had the opportunity to express interest and provide evidence of their capacity and capabilities to perform all or part of the services. Three elements of the specification were identified:

- (a) those aspects where there is no competition, eg, those parts of the specification that relate to the required specialist facilities for this contract;
- (b) those parts where there may be genuine competition.
- (c) those parts where competitors have expressed an interest in supplying all or part of the requirement, but have not provided sufficient information when requested to establish that they have, or could develop in the time available, the necessary capacity or capability.

In relation to (b) there are some services for Government Departments, FSA, HSE, Welsh Government and DAERA where reasonable alternatives in the market were identified, as such, those services have been disaggregated and those respective Departments will identify a route to market outside of this contract. Some research and development requirements that are not related to (a), will be procured through Defra's existing RDE Framework or such other route to market. As such these services no longer form part of the specification for this contract.

In relation to (a) and (c), the market engagement has identified that currently there is no candidate who is able to deliver the requirements of the specification and competition is absent for technical reasons.

As such this contract will be awarded by direct award in accordance with Regulation 32(2)(b)(ii).

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section V. Award of contract/concession

A contract/lot is awarded: Yes

V.2) Award of contract/concession

V.2.1) Date of conclusion of the contract

17 March 2025
