VI.4.3) Review procedure

Precise information on deadline(s) for review procedures

The Council will incorporate a minimum 10 calendar day standstill period at the point where contract award is

communicated to tenderers. Applicants who are unsuccessful shall be informed by the Council as soon as possible

after the decision has been made as to the reasons why the applicant was unsuccessful. If an appeal regarding the

award of the contract has not been successfully resolved, The Public Contracts Regulations 2015(SI 2015 No. 102)

provide for aggrieved parties who have been harmed or are at risk of harm by breach of the rules to take legal action.

Any such action must be brought within the applicable limitation period. Where a contract has not been entered into,

the court may order the setting aside of the award decision or order the authorities to

amend any document and may

award damages.

If the contract has been entered into the court may, depending on the circumstances, award damages, make a

declaration of ineffectiveness, order the relevant authority to pay a fine, and/or order that the duration of the contract

be shortened. The purpose of the standstill period referred to above is to allow the parties to apply to the courts to set

aside the award decision before the contract is entered into.
