WS2695713484

Description

Transport for London has sought a supplier to replace engines on the two Woolwich Ferry vessels, which are equipped with two type QSK-19DM Tier II Cummins engines (4 engines in total).

In line with current projected running hours, the engines on both vessels will replace new-for-old with matching Cummins QSK-19DM Tier II (IMO2) engines in line with existing Class approval (to extend to engine interfaces). The Invitation to tender has found a suitable supplier to replace the new-for-old engines on the vessels.

The Cummins QSK-19DM Tier II (IMO2) engines have been procured outside of this requirement and has been delivered to Woolwich in December 2025.
