Body governed by public law

I.5) Main activity

Other activity

Business, Energy & Industrial Strategy

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

PS22132 Operating Agent for an IEA Annex on Retrofitting Heat Pumps in Large Non-Domestic Buildings

Reference number

PS22132 Operating Agent for an IEA Annex on Retrofitting Heat Pumps in Large Non-Domestic Buildings

II.1.2) Main CPV code

- 73000000 - Research and development services and related consultancy services

II.1.3) Type of contract

Services

II.1.4) Short description

** Please note this is not a call for competition, This is a PIN notice for a Supplier Engagement Session for The Department for Business, Energy & Industrial Strategy (BEIS) requirement**

1. Background & Purpose:

The UK has committed to reducing its greenhouse gas emissions to net zero by 2050. To achieve this, the Department expects that emissions from all buildings, including non-domestic buildings, will have to be all but eliminated. The challenge of decarbonising

energy use in non-domestic buildings is considered one of the most complex policy areas for the department. With the commitment to decarbonise the supply of electricity, electrically driven heat pump systems provide a great potential to achieve reductions in CO2 emissions and transition buildings to a net zero ready future.

The purpose of this project is therefore to reduce the complexity facing decision makers and provide them with impartial, robust evidence and tools to help facilitate the decisions that will lead to a greater deployment of heat pump systems in existing, large non-domestic buildings.

2. The Key Aims and Objectives of the Project are:

- To bring together, and manage, a diverse range of experts from many different countries to contribute information and insight from their own knowledge and expertise, in a timely manner to help achieve the objectives of the project.
- To build on existing tools and evidence to make best use of time and re-sources to deliver the objectives of the project

This contract is expected to run until December 2024

The anticipated maximum budget for this future requirement is £145K excluding VAT (including £10k for additional activities).

3. The aims of the pre-market engagement session are to:

- Provide an opportunity for prospective bidders to find out more about the aims of the procurement
- Have the opportunity to ask questions about the opportunity and the process

We would like to invite prospective bidders to attend a pre-market engagement session on Wednesday, 20th April @11:00-12:30 via MS Teams.

The agenda for the day is as follows:

- Welcome & Introductions (BEIS /UK SBS)
- Overview of the requirement (Presentation - BEIS)
- Procurement approach and process (UK SBS)
- Discussion / Q&A (All)

II.1.5) Estimated total value

Value excluding VAT: £145,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 45232141 - Heating works
- 71314000 - Energy and related services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

** Please note this is not a call for competition, This is a PIN notice for a Supplier Engagement Session for The Department for Business, Energy & Industrial Strategy (BEIS) requirement**
