**II.2.4) Description of the procurement**

One of Birmingham City Council's mandatory public health services is the NHS Health Check, which is provided by health professionals. It is a health examination for adults in England between the ages of 40 and 74. It is intended to detect early indications of dementia, type 2 diabetes, kidney illness, heart disease, and stroke. We are more likely to develop one of these conditions as we age. Finding measures to reduce this risk is assisted by an NHS Health Check. The examination includes a series of questions about a patient's health and lifestyle, including ones concerning physical activity, as well as measurements of height, weight, and blood pressure and a quick blood test to check cholesterol. The health professionals go through the results with the patient and discuss any changes required to enhance the patient's wellbeing.
