Award

## AUIP Sensor Package

Offshore Renewable Energy Catapult

UK6: Contract award notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-009959

Procurement identifier (OCID): ocds-h6vhtk-04ee95 ([view related notices](#))

Published 18 March 2025, 3:24pm

## Scope

### Description

As part of our Innovate UK-funded project, we are required to develop an offshore wind farm simulated environment where robotic developers can test and validate their systems. To ensure the simulation

accurately reflects real-world conditions, we will conduct underwater mapping inspections of key areas of interest, such as the DARE Centre, Grimsby Docks, and LDT. These inspections will allow us to build true-to scale underwater environments, ensuring that objects and obstacles encountered in simulation match those found in real-world operations.
