### **II.2.4) Description of the procurement**

LinesearchBeforeUDig (LSBUD) is an online system which any third party can use to help them find utility pipes and cables in order to work safely. By undertaking a simple search, each enquirer gets an instant response for all the apparatus owned and/or operated by the 90+ Asset Owners (LSBUD Members). All enquirers (users) receive an instant response to their enquiry advising if their site is inside or outside an Area of Interest (AOI) that would be designated by Northern Gas Networks (NGN). The result of this filtering process means that enquirers receive faster response times and NGN only receive relevant enquiries, eliminating any wasted time checking enquiries that are not near our assets.
