Severn Wye Energy Agency Limited

Gloucester

GL2 8DN

Country

United Kingdom

NUTS code

- UKK - South West (England)

The contractor/concessionaire is an SME

Yes

VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

Modification to extend the contract for 24 months based on Reg 72(1)(c).

VII.2.2) Reasons for modification

Need for modification brought about by circumstances which a diligent contracting authority/entity could not foresee.

Description of the circumstances which rendered the modification necessary and

explanation of the unforeseen nature of these circumstances:

New funding under the Sustainable Warmth Program has been announced by Central Government with a bid submission deadline with delivery partners of August 2021. Delivery of the scheme will take place between January 2021 and March 2023. It is not appropriate to procure a new contractor during the delivery of such a program of work as the current contractor has been identified in the bid as the delivery partner. If a change in delivery

partner could be negotiated with government, this would cause unacceptable delays to the project delivery given the short delivery time frame. The project will be offering advice and

assistance to vulnerable households and a change in delivery partner will cause unacceptable confusion to those households.

(ii) The services required under the contract will not be changed from the original contract.

(iii) The increased value of the contract is 40% of the value of the original contract.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £1,042,220

Total contract value after the modifications

Value excluding VAT: £1,459,108
