---

## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

Nuclear Monitor Supply and Maintenance

Reference number

TRN5029/04/2021

#### **II.1.2) Main CPV code**

- 98113100 - Nuclear safety services

#### **II.1.3) Type of contract**

Services

#### **II.1.4) Short description**

The objective of this PIN is understand and create awareness with potential suppliers in the sector of nuclear monitoring supply and maintenance. BEIS aim is to leverage new technologies to improve the UK's radiation detection capability around civil nuclear sites, as well as maintaining the support service for the existing national network of monitors to a high standard.

It is planned to structure the procurement (but not committed) as one lot which will include the procurement of new assets to augment the existing network, and the procurement of a support and maintenance service for both the new and existing monitor types in the network (and their associated data communications solutions). The terms of the support and maintenance service will include (but will not be limited to): monitor fault response and rectification, repairs, calibrations and performance reporting.

#### **II.1.6) Information about lots**

This contract is divided into lots: No

### **II.2) Description**

#### **II.2.2) Additional CPV code(s)**

- 38940000 - Nuclear evaluation instruments

### **II.2.3) Place of performance**

NUTS codes

- UK - United Kingdom

Main site or place of performance

UNITED KINGDOM

### **II.2.4) Description of the procurement**

BEIS is the Lead Government Department for civil nuclear emergencies in the UK and operates the national network of radiation monitors.

The procurement is to manage and maintain an existing estate of radiation monitors to an agreed service level that ensures BEIS has an effective solution to radiation monitoring across the UK.

The objective is to leverage new technologies to improve the UK's radiation detection capability around civil nuclear sites, as well as maintain the support service for the existing national network of monitors. The competition is planned as one lot which will include the procurement of new assets to augment the existing network, and the procure a support and maintenance service for both new and existing monitor types in the network (and their associated data communications solutions). The terms of the support and maintenance service will include (but not be limited to): monitor fault response and rectification, repairs, calibrations and performance reporting.

### **II.2.14) Additional information**

The contract will be for five years with an option of a further one year extension, a total of up to six years. BEIS invites interested parties to express their interest to attend a supplier engagement day targeted to be held late June 2021, where an invite to attend will be sent to you. All responses should be sent to BEIS before 20th May 2021. Details will follow to all interested parties.

### **II.3) Estimated date of publication of contract notice**

27 July 2021

---

## **Section IV. Procedure**

### **IV.1) Description**
